

HEALTH & SAFETY MEASURES

1. If you or your baby/child are ill or feel unwell on the day of your visit, please reschedule your appointment (our researchers will do the same). Please do not visit the labs if you or your baby/child have a high temperature, flu, Covid or suspected Covid.
2. We will maintain extra cleaning measures in all our labs and communal areas.
3. You will be greeted at the main door and let in by the researcher you've been in contact with.
4. Hand sanitising stations are available throughout our buildings.
5. A selection of toys and books will be present for babies and children to play with. They will be cleaned appropriately after each use.
6. We ask that you bring any snacks and nappy changing necessities with you, though we have back-ups on request.
7. Birkbeck strongly encourages all staff and students to be vaccinated and boosted according to NHS guidance.
8. We recognise everyone has different comfort levels regarding the wearing of masks and respect all decisions in this regard.
